

CONFERENCE OBJECTIVES

The main objective of this conference is to provide a forum for engineers, academicians, scientists and researchers to present the result of their research activities in the field of Computer and Communication Engineering. The primary focus of the conference is to create an effective medium for institutions and industries to share ideas, innovations and problem solving techniques. On this basis, the Department of Electrical and Computer Engineering, IIUM is calling for papers for submission to the 3rd International Conference on Computer and Communication Engineering (ICCCCE'2010) which addresses issues that serve the field and the global community.

CONFERENCE TOPICS

Papers are invited in topics that cover, but are not limited to:-

- Ad-hoc and Sensor Networks
- Agents, Knowledge-Based Technologies
- Bioinformatics Engineering
- Computer Architecture and design
- Computer Networks and Security
- Data Mining and Database Applications
- Grid Computing
- High Performance Networks and Protocols
- Multimedia and Web Services
- Network Reliability and QoS
- Neural Networks and Intelligent Systems
- Software Engineering and Agile Development
- 3G, 4G Mobile Communications
- Antennas and propagation
- Multiple Access Techniques
- Optical Communications and Photonics
- RF and Microwave Devices
- Satellite, Space and Wireless Communications
- Information Theory and Coding
- Instrumentation and Control
- Signal and Image Processing
- IC Design
- RFID, RFIC
- VLSI Design
- Ethics in Informatics and Engineering

ABSTRACT AND CONFERENCE PAPERS

An abstract of about 300 words should be submitted to the conference secretariat. Authors of accepted abstracts will be notified to submit full-length papers which will be reviewed for presentation and publication in the conference proceedings.

IMPORTANT DATES

- Deadline for *abstract* submission 1 November, 2009
- Acceptance of *abstract* 15 November, 2009
- Deadline for full papers submission 1 January, 2010
- Acceptance of papers 1 March, 2010
- Submission of camera-ready manuscripts 1 April, 2010
- **Deadline for early registration 1 April, 2010**

ABOUT IUM

The International Islamic University Malaysia (IUM) was established in 1983 by the Government of Malaysia and co-sponsored by a number of Muslim governments. Using English as a medium of instruction, the university currently serves as an institution of higher learning with international students from more than 90 countries.

The Faculty of Engineering was established in 1994, and is currently offering Bachelor, Master and PhD programs in the area of Communication, Computer and Information, Aerospace, Automotive, Biotechnology, Mechatronics, Manufacturing, and Materials engineering.

ABOUT MALAYSIA AND KUALA LUMPUR

About Malaysia

Malaysia is a land of fascinating sights and attractions. Rich in colour and contrasts, her multi-faceted charm provides intriguing images that leave visitors to the country in awe. With temperature that fluctuates little throughout the year, travel in Malaysia is a pleasure. The natural warmth of Malaysians is legendary, the friendliness and hospitality of the people would prove to be a very special experience. Its sun-drenched beaches, enchanting islands, diverse flora and fauna, forest retreats and magnificent mountains are among the best in this region.

About Kuala Lumpur

Kuala Lumpur brings together Malaysia's past and present, its many constituent cultures, and remarkable natural treasures. Experience the rich culture of historic Kuala Lumpur through its art galleries, diverse architectures and local centres. Discover the unsurpassed beauty and variety of craft plants and animals through its botanical and bird parks. Encounter the delights of Malay, Chinese, Indian and Nyonya cuisines. As the entry point for most visitors and the meeting point of the country's many attractions, Kuala Lumpur is a grand gateway to fascinating destinations.
