

CONFERENCE OBJECTIVES

The objective of this conference is to provide a forum for engineers, academicians, scientists and researchers to present the result of their research activities in the field of Computer and Communication Engineering. The primary focus is to create an effective medium for research and education institutions and to share within industries ideas, innovations and problem solving techniques. On this basis, the Department of Electrical and Computer Engineering, IIUM is calling for papers to be submitted to the 5th International Conference on Computer and Communication Engineering (ICCCE'14) which address issues that serve the field and the global community.

CONFERENCE TOPICS

Papers are invited that cover, but topics are not limited to:-

- Satellite, Space and Wireless Communications
- Antennas and propagation
- 3G, 4G Mobile Communications
- Optical Communications and Photonics
- RF and Microwave Devices
- Signal and Image Processing
- Information Theory and Coding
- Multiple Access Techniques
- Computer Networks and Security
- High Performance Networks and Protocols
- Network Reliability and QoS
- Computer Architecture and design
- Software Engineering and Agile Development
- Data Mining and Database Applications
- Neural Networks and Intelligent Systems
- Multimedia and Web Services
- Bioinformatics Engineering
- Agents, Knowledge-Based Technologies
- Ethics in Informatics and Engineering
- Communications IC Design
- Instrumentation and Control
- VLSI Design
- Grid Computing
- Green ICT

EXTENDED ABSTRACT AND CONFERENCE PAPERS

An extended abstract should contain the contents of the submission and briefly describes the used methods. The achieved results and contributions of the new work have to be clearly pointed out. Authors of accepted extended abstracts will be notified to submit full-length papers which will be reviewed for presentation and publication in the conference proceedings. **Unregistered papers will not be published in the conference proceedings.**

The Faculty of Engineering was established in 1994, and is currently offering Bachelor, Master and PhD programs in Communications, Computer and Information, Aerospace, Automotive, Biotechnology, Mechatronics, Manufacturing, and Materials engineering.

ABOUT MALAYSIA AND KUALA LUMPUR

About Malaysia

Malaysia is a land of fascinating sights and attractions. Rich in colour and contrasts, her multi-faceted charm provides intriguing images that leave visitors to the country in awe. With temperature that fluctuates little throughout the year, travel in Malaysia is a pleasure. The natural warmth of Malaysians is legendary, the friendliness and hospitality of the people would prove to be a very special experience. Its sun-drenched beaches, enchanting islands, diverse flora and fauna, forest retreats and magnificent mountains are among the best in this region.

About Kuala Lumpur

Kuala Lumpur (KL) is one of the most interesting and most visited cities in the world. It is rich with a diversity of cultures, magnificent architecture that present the magic of the orient, which makes Malaysia truly Asia. Originating from a mere tin miners' settlement, now it is one of Southeast Asia's most majestic and lively capitals. Kuala Lumpur comprises Malaysia's past and present. In the midst of the city's glittering global cosmopolitan and its shining, modern office towers, the sights of the reminiscent British colonial buildings are evident. Today, KL is home to some of Southeast Asia's biggest and most exalted shopping precincts. It is the shopping paradise for both locals and international visitors.
