Profile

Currently he is a Senior Lecturer at Kulliyah of Architecture and Environmental Design (KAED), International Islamic University Malaysia, lecturing various courses in the field of project management and quantity surveying. At undergraduate level as well as post graduate level.

He has held administrative leadership position namely as Head of the Department of Quantity Surveying from 2001 until 2005.

He was also actively involved with the society through being a committee member of the Board of QS Malaysia (registration and accreditation) and sub-committee member of the Institution of Surveyors Malaysia. His expertise was also useful when he is appointed a committee member of the redevelopment of his local Masjid in Hulu Langat.

Before joining IIUM as an academic staff in 2001, he was practicing as a Quantity Surveyor and subsequently as a Project Manager in UDA, a semi-government developer, and then in a big private developer company and finally as a General Manager of a Class A contractor in Penang.

Prior to joining UDA, Sr. Yahaya Mohd. Yunus studied in the University of Reading and graduated in 1982.

Whilst in UDA, he was a QS and Project Manager for many projects, from as small as a taxi stand to a 220 acre mixed housing development. Later, working for a private developer, he was tasked to oversee the implementation of a development project of a new township near Shah Alam, an area of about 3,130 acres.

As an academic in IIUM since 2001, he was awarded the Best Teacher (Kulliyah level) twice in 2003 and 2005 and best researcher (Kulliyah level) in 2004.
