### **Profile**

**Dr. Mazlina Mansor** is an Assistant Professor at the Department of Landscape Architecture, Kulliyah of Architecture and Environmental Design, International Islamic University Malaysia. She has an academic background in Environmental Design (University of Tasmania, Australia), Environmental Management (Universiti Kebangsaan Malaysia) and Landscape Architecture (Universiti Teknologi Malaysia). The areas of her research interest include urban public space, urban green infrastructure, human ecology, environment-behavior studies and Cultural landscape and heritage. Her research covers the investigation of humans' perceptions, behaviours and their relationships with urban natural places, experiential landscape, person's attachment to place, and meaning of space and place. The academic subjects that she teaches include community design studio, urban design and introduction to landscape architecture. Currently she is an Academic Adviser for Bachelor of Landscape Architecture.
