

# Asst. Prof. Dr. Norhanis Diyana Nizarudin

## Kulliyah of Architecture and Environmental Design

### Academic/Professional Qualifications

1. PhD of Landscape Architecture, The University of Edinburgh
2. MSc (Built Environment), IIUM
3. Bachelor of Landscape Architecture (Hons), IIUM

### Expertise

1. Urban public spaces
2. Environment-behaviour studies (Spatial and behavioural mapping with GIS application)
3. Green landscape technology

### Research Interests

1. People-place research
2. Mapping based research

## Profile

**Norhanis Diyana Nizarudin** is an Assistant Professor in the Department of Landscape Architecture, Kulliyah of Architecture and Environmental Design (KAED), International Islamic University Malaysia (IIUM). She obtained her Bachelor of Landscape Architecture (Hons) and Msc (Built Environment) from the same institution where she is attached to now, as well as Doctor of Philosophy degree from Edinburgh College of Art, The University of Edinburgh, United Kingdom. She also had an industrial experience working with a landscape architecture design firm (Greenville Landscape Sdn Bhd) that exposed her to several mixed-development projects.

The areas of her research interest revolve around public spaces in the urban context, environment-behaviour studies with the use of spatial and behavioural mapping as well as green landscape technology. Basically, her niche areas are people-place relationship research as well as mapping-based-research. She also has an interest in architecture and design visualization software and applications. Recently, she successfully received her professional certification in AutoCAD Professional Course and Examination by Autodesk. She had been exposed to several trainings for software application such as Autodesk Revit, SketchUp as well as Adobe Creative Suites.
