

INTERNATIONAL ISLAMIC UNIVERSITY MALAYSIA

KAHS'S HEALTH, SAFETY AND ENVIRONMENT POLICY

In accordance with the provisions of Section 16, Occupational Safety and Health Act 1994 (Act 514), *KULLIYAH OF ALLIED HEALTH SCIENCES (KAHS)* endeavours to achieve excellence in managing Health, Safety and Environmental (HSE) at workplaces by inculcating the awareness of the importance for staff members, students and relevant interested parties who deal with KAHS.

Thus, KAHS is committed towards:

- **COMPLIANCE** with all applicable HSE legal requirements, other requirements, and compliance obligations.
- **PROTECTION** of the environment, prevention of pollution and sustainable resource use.
- **PREVENTION** of work-related injury, ill health and property damage as well as providing safe and healthy working conditions.
- **ENSURE** that all workplaces and work systems are safe, healthy and conserve the environment includes a commitment to eliminate hazards and reduce risks.
- **PROVIDE** adequate consultation and participation through safety and health committee; provide basic facilities and equipment for the staff to perform their daily duties in a safe, healthy manner and environmentally friendly.
- **CONTINUAL IMPROVEMENT** in HSE management system.

This **POLICY** shall be the guiding principles for KAHS to establish and practise a safe working culture towards achieving KAHS's vision to become a leading centre in the provision of knowledge and service in the field of health sciences towards achieving and reviving Islamic glory in Science and Technology.

The **POLICY** shall be implemented, maintained, and communicated to all staff members, students, and relevant interested parties. It shall be the responsibility of all parties to ensure that this **POLICY** is being followed in all related activities.

(Prof. Dr. Ahmad Aidil Arafat Dzulkarnain)
