

MALAYSIAN MEDICAL COUNCIL
Evaluation of Specialist Training Programmes

~~~~~

## Criteria for Award of Full Accreditation

### Overview:

All specialist training programmes in Malaysian **must fulfil all three (3) criteria** for award and duration of full accreditation by the Malaysian Qualification Agency, as well as subsequent recognition of the programmes by the Malaysian Medical Council.

#### ❖ **Criteria 1: Overall Score**

| Total Evaluation Score | Year of Accreditation                          |
|------------------------|------------------------------------------------|
| ≥80%                   | 7 years                                        |
| 70 – 79 %              | 4 years                                        |
| 60 – 69 %              | 2 years                                        |
| Less than 60%          | 0 year (Failed accreditation / unsatisfactory) |

#### ❖ **Criteria 2: Satisfactory Performance in Critical Accreditation Areas**

| Critical Accreditation Area                   | Minimum Mark for Evaluation of Critical Areas |
|-----------------------------------------------|-----------------------------------------------|
| Area 1:<br>Programme Development and Delivery | ≥60%                                          |
| Area 2:<br>Assessment of Student Learning     | ≥60%                                          |
| Area 4:<br>Academic Staff                     | ≥60%                                          |

#### ❖ **Criteria 3: Satisfactory Performance in other Accreditation Areas**

| Accreditation Area              | Minimum Mark for Evaluation of Other Area |
|---------------------------------|-------------------------------------------|
| Area 3:<br>Student              | ≥50%                                      |
| Area 5:<br>Learning Resources   | ≥50%                                      |
| Area 6:<br>Programme Management | ≥50%                                      |
| Area 7:<br>Quality Assurance    | ≥50%                                      |
