INTERNATIONAL ISLAMIC UNIVERSITY MALAYSIA
Garden of Knowledge and Virtue

Easy Reference to Teaching and Learning TAXONOMY & SOFT SKILL Elements

IIUM Philosophy

The philosophy of the university was inspired by the recommendations of the First World Conference on Muslim Education held in Mecca in A.H. 1398/ A.D 1977. The spirit of this philosophy is based on the Holy Qur'an, in particular the five verses revealed to the Prophet Muhammad S.A.W., namely Al-Alaq, verses 1-5.

According to this philosophy, knowledge shall be propagated in the spirit of Tawhid, leading towards the recognition of Allah as the Absolute Creator and Master of mankind.

The spirit behind this recognition of Allah as the Lord of the World (*Rabb al-Alamin*) represents the apex in the hierarchy of knowledge. Thus, all disciplines of knowledge should lead towards subservience to this truth.

This is because knowledge is a form of trust (*amanah*) from Allah to man, and hence man should utilize knowledge as the servant and vicegerent (*khalifah*) of Allah on Earth.

In this way, knowledge is regarded as an act of worship.

IIUM Vision

IIUM aims at becoming a leading international centre of educational excellence which:

1. Revitalizes the intellectual dynamism of Islam and the Muslim Ummah;
2. Integrates Islamic revealed knowledge and values in all academic disciplines and educational activities;
3. Seeks to restore a leading and progressive role of the Muslim Ummah in all branches of knowledge; thereby,
4. Contributing to the improvement and upgrading of the qualities of human life and civilization.

IIUM Mission

Integration
Islamization
Internationalization, and
Comprehensive Excellence

Programme Outcomes

P01 Knowledge

P02 Practical Skills

P03 Social Skills and Responsibility

P04 Values, Attitudes and Professionalism

P05 Communication, Leadership and Team Skills

P06 Problem Solving and Scientific Skills

P07 Information Management and Life Long Learning Skills

P08 Managerial and Entrepreneurial Skills

P09 ***Integration of Islamic Revealed Knowledge and Values***

STUDENT CENTERED LEARNING

CASE STUDY

It is an in-depth study of the unique characteristics of a certain process, situation, event or document.

PROBLEM BASED LEARNING (PBL)

It challenges students 'to study in order to study' as a team. PBL encourages students to think creatively and analytically as a team using relevant, realistic resources.

PROJECT ORIENTED PROBLEM BASED LEARNING (PoPBL)

This approach utilitizes projects as the basis of teaching. It begins from the choice and formulation, to the running of the project.

MODULAR

This a self-study unit that is organized to improve the process of learning, encompassed within a course or programme of study.
