ABOUT THE PROGRAMME

The 31st International Conference of Analytical Sciences 2018 (SKAM31) is jointly organized by International Islamic University Malaysia (IIUM) and Malaysian Analytical Sciences Society (ANALIS). This event will bring together academicians, scientists, researchers and students, to present and discuss the latest development and findings of their research in areas related to analytical sciences. Since its inauguration in 1987, SKAM has provided tremendous findings and contributions for the scientific community in various analytical-related field.

OBJECTIVES

- To emphasize on current research, advancement and application related to analytical sciences and chemistry.
- To provide a platform for researchers to share their findings in research.
- To initiate a positive networking among researchers for collaborations in mutual area of interest.

TOPICS COVERED

- Inorganic Chemistry
- Organic Chemistry
- Material Chemistry
- Environmental Chemistry
- Spectroscopic Techniques
- Food Chemistry & Biotechnology
- Pharmaceutical & Nutraceutical Chemistry
- Cosmeceutical Chemistry
- Aqua Chemistry
- Nuclear Chemistry
- Catalysis
- Any related Analytical Sciences
